Personal Lockable Storage

Woods' PLS series is specifically designed and manufactured to the highest standards to ensure the safeguarding of personal belongings. These high quality Australian made lockers will ensure peace of mind that valuable items are safe and secure.

Woods Furniture created and designed the innovative Woods Security Locker in the late 1980's. Today, Woods continues to lead the way with the evolution of personal lockable storage with the PLS Series.

The strength and durability of the locker design, has seen this product in continuous use for over 25 years in the most testing of environments.

Frames

The locker frames are manufactured from heavy duty steel. These frames give the unit their amazing rigidity.

Carcass

The locker carcass is manufactured from 16mm Decorwood and is available in 4 practical colours. The laminated carcass and doors with sealed edges are moisture resistant and easy to clean. Lockers sit on a 98% wood/plastic recycled composite base.

Doors and Hinges

The ultra tough doors and unique Woods hinge system give these lockers their superior security and longevity of use. Our 13mm DuraTough or 18mm Decorwood doors are much tougher than metal and plastic doors. The doors are available in a range of vibrant and practical colours.

Optional Features:

Sloping Hood Option

To prevent unwanted items being placed on top of the units, we provide the option of fitted sloping hoods. The finish of the hoods will match the carcass.

Identification Plaques

Our numbering system offers a wide variety of colour coded plaques to complement the door and frame colours. Our system assists with clear identification with numbers engraved into plaques that will stand the test of time. Plaque numbering can be customised to fit a school's requirements.

Configurations

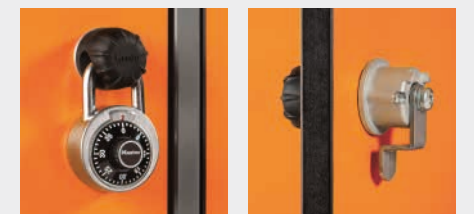

With 3 door sizes and a number of locker bank configurations, you are able to maximise space while meeting your students' storage needs.

Door Layout

While the most common locker bank consists of 1 door finish, Woods offers the option of multiple door colours to create a visually impressive display.

Ultimate Security

Our locally designed and manufactured heavy duty Cam Lock has been specifically created for use in the education market to give you peace of mind that valuable items can be stored safely and securely. The design also allows for schools to supply their own padlocks or combination locks as required.

The Woods brand is synonymous with strength and longevity. The units are Australian made and with their durable design, will provide many years of trouble free use. We stand by every product that carries the Woods name.

PLS A Series

Edumax Primary Teaching Unit

Much more than 'just a big book stand', the Primary Teaching Unit can easily be moved around the classroom for use at various activity stations either by teachers or students. It can be used for both whole and small group instruction across all curriculum areas.

Porcelain Whiteboard

Premium quality, vitreous porcelain magnetic whiteboard 800mm x 900mm. Easy to clean and great for magnetic letter use. Backed with a commercial whiteboard for storing magnetic letters and writing evaluative notes.

Hold Ups

Unique Hold Up system – holds multiple sheets of paper. It's invaluable for wall stories, for use with large sheets of paper as a flip chart and to hold the clear PVC overlay sheet. The 'no lip' book ledge won't tear pages of valuable big books.

Sturdy Construction

Strong and safe featuring a low centre of gravity and made with 18mm Decorwood. Other features include: practical big book cavity, convenient rear hanging rail, generous book box storage and heavy duty castors.

Finishes

Available in Juicy, Oyster Grey, Olympia Blue or Olympia Red.

The slide out drawer comes with an optional lock if required.

Slide out drawer with optional magnetic letter/flashcard storage tray.

Slide out drawer with optional stationery organiser.

Storage Finish Options

Locker Doors & Mobile Storage Panelling

Option 1
13mm DuraTough
This is a durable decorative panel, with black edge, made from thermosetting resins, homogeneously reinforced with cellulose fibres and manufactured under high pressure and temperature. The tops are extremely durable and moisture resistant.

Option 2
18mm EO Decorwood
This is a medium density fibreboard bonded on both sides with hard wearing melamine decorative surface. The wood content used is 60% pre-consumer recycled and 40% reclaimed silviculture fibre. Edges are sealed and coated with a black or clear polyurethane edge. These tops contain no PVC.

Locker Carcass

16mm EO Decorwood
This is a medium density fibreboard bonded on both sides with hard wearing melamine decorative surface. The wood content used is 60% pre-consumer recycled and 40% reclaimed silviculture fibre. Edges are sealed and coated with a black polyurethane edge. These carcasses contain no PVC.

Locker Steel Frame Options

Durable powder coated steel frame for strength and support.
